Don Schafheitlin
President
*Bayfield Ratepayers
Association*

Dear neighbors and friends,

Our community contributes significantly to the economic health of Bluewater and Huron counties. Approximately 25 percent of the residential taxes collected in the Municipality of Bluewater comes from Bayfield. Bayfield residents, cottagers and visitors are drawn here by the natural beauty of the lake, unspoiled beaches, hiking trails, shops and restaurants, Pioneer Park and the opportunity for fishing, swimming and boating within the community. Preserving all of this and retaining the inherent charm and vibrant “small town” character of Bayfield for current and future generations, while advocating for positive change, is our charter.

Join us in this crusade to maintain the unique character and cohesiveness of this community by joining the BRA. The Bayfield Ratepayers Association is a not-for-profit organization made up of volunteers dedicated to presenting issues of importance to the community and representing you at council, planning boards and committees. Dues are \$20 per year and the major annual expenses include liability insurance for the directors, hall rental for general meetings and communication materials.

Look for our booth at the Home and Garden Show on April 20th at the Bayfield Community Centre and for our volunteers hanging door membership invitations to join the BRA team. If you have input on how to make the BRA organization even more effective and responsive, please attend the Spring General Meeting on May 18th or the Annual General Meeting on August 3rd at the Bayfield Community Centre or contact us at
